

**Tanja Stamm**  
Professor of Outcomes Research

The aim of our outcomes research breakfast is to facilitate discussions about what we measure and how we measure outcomes in healthcare in Austria.

How can we ensure that we measure what really matters to patients? Which score or questionnaire should a clinician or a researcher choose? Do young patients have different needs in terms of outcome measures than older adults? In this regard, it is important to understand outcomes research as an interdisciplinary initiative that involves many different healthcare professions and institutions.

This is our second event in order to follow up on the established "Qualitative Methods and Patient Reported Outcomes Forum" in Austria. We aim to develop further cooperations and activities in this direction. We warmly welcome the people who have already joined the Forum, as well as many other interested researchers and clinicians. Following a keynote address and two scientific presentations, you are invited to a networking breakfast.

1090 Vienna

## Programme

8.30 – 8.45 am

**Registration and coffee/tea**

---

8.45 – 8.50 am

**Welcome and introduction**

Tanja Stamm, Institute of Outcomes Research,  
Center for Medical Statistics, Informatics and  
Intelligent Systems, Medical University of Vienna

---

8.50 – 9.20 am

**Keynote**

**Outcomes that matter to patients in Austria from the  
perspective of Gesundheit Österreich GmbH (GÖG)**

Herwig Ostermann, Director of Gesundheit Österreich  
GmbH

---

9.20 – 9.40 am

**Patient-reported outcomes research: past, present  
and future**

Romualdo Ramos, Institute of Outcomes Research,  
Center for Medical Statistics, Informatics and  
Intelligent Systems, Medical University of Vienna

---

9.40 – 10.00 am

**“One single scale is a waste of paper!”  
Outcomes that matter most to young patients with  
rheumatic diseases: a qualitative multicenter study  
in four European countries**

Erika Mosor, Institute of Outcomes Research,  
Center for Medical Statistics, Informatics and  
Intelligent Systems, Medical University of Vienna

---

10.00 – 10.10 am

**Wrap-up**

Tanja Stamm, Institute of Outcomes Research,  
Center for Medical Statistics, Informatics and  
Intelligent Systems, Medical University of Vienna

---

10.10 – 11 am

**Networking breakfast**
